The Members thanked the staff for the preparation of the Roads Programme. They acknowledged that while progress has been made, there is still a significant shortfall of funding.

She expressed her concerns with the surface on the N59 especially from Derrynea to Clifden and she welcomed the funding for the Letterfrack pedestrian crossing.

Cllr. McKinstry noted that the bus stops for Moycullen were not yet built. He queried if any of the €3 million funding earmarked for the Ring Road was transferable.

Comh. O'Curraoin stated that all the recent rain was having a detrimental effect on the roads. Roadside drains were not made anymore, and the water has no place to run off. He said that the materials used to resurface the roads will have to be considered with regard to the weather conditions.

Comh. Mac an Iomaire said that there were two sections of the R336 resurfaced, but it would be necessary to use black top. He noted that Heavy Goods Vehicles that were drawing stones for the Rossaveal Pier development had damaged the road. He noted that there was inadequate funding for bridges and he said that Cuan Na Loinge Bridge is an emergency situation.

Cllr. Walsh raised the matter of the condition of the Pier Road adjacent to the Rugby Club. Planning permission was refused due to the condition of the road, and the club are unable to apply for any grants for the facility. He asked that €50,000 funding be made available this year for this important infrastructure to facilitate a major amenity in the town of Oughterard. He also requested an update on the current position of the Bunnakill to Oughterard Road.

Cllr. Thomas welcomed the funding for the greenway and queried the €250,000 funding for the N59 Pedestrian Bridge in Oughterard. He enquired as to the status of the Part 8 for the pedestrian lights and he advised that the N59 through Moycullen village be brought up to a high standard before it is handed over. He stated that drainage works are required on the N59 from Killanan to Oughterard, as this is a serious accident location.
