#### **13. Cllr. Jim Cuddy**

##### **I will propose:**

That representatives of TII would come before our plenary meeting as soon as possible to give clarification with regard to certain road projects in the county which come within their remit.

#### **14. Cllr. Jim Cuddy**

##### **I will propose:**

It is a number of years since Galway County Council passed a motion requesting the presence of IDA representatives to appear before the elected members to outline their regional policy with regard to attracting employment throughout the county of Galway. Many of our towns are ideally equipped to provide employment opportunities. This would help local communities to remain sustainable rather than having to travel long distances to and from work each day and would help to reduce carbon emissions and give people a better quality of life.

#### **15. Cllr. Martina Kinane**

##### **I will propose:**

We need to recognise the importance of short term self catering accommodation in County Galway as an important tourism product which is an economic driver in many small local communities providing jobs and income streams in farm and rural households. It contributes to the local economy and success of local events and festivals, heritage sites, amenities like marine, boating, fishing, equine, etc. as well as pubs, shops, food and crafters, cafés, amenities and restaurants. The proposed new legislation on short term self catering accommodation will not permit stays less than 21 days and I foresee a huge reduction in the availability of rural holiday accommodation as a result. I believe we need to protect our rural tourism offering in County Galway. I wish therefore to propose that Galway County Council write to the Minister for Housing, Local Government and Heritage of Ireland, Darragh O'Brien seeking that voting on the new legislation be postponed until September 2023, to allow time for clarity on planning regulations to be discussed, for all stakeholders to be included and to secure existing offering self catering accommodation for this years tourist season.

## **16. Cllr. Kary McHugh Farag**

**I will propose:**

I propose that Galway County Council create a new range of by-laws and protocols for the display and erection of election posters for Local, European, National and Presidential elections, included in this would also be the erection and displayed of posters for referendums. In these by laws/protocols the location and number of posters/displays by individuals should be restricted to a maximum agreed number and in specified locations based on public consultation, as per the by law process.

I am bringing this forward for several reasons:

1. Globally we are moving away from single use plastics and many organisations have outright banned the usage of single use plastics. It is incumbent on us as community representatives and those who wish to contest elections to show leadership on an individual level when it comes to elections and to reduce the usage of plastic in campaigns.
2. Many local groups particularly Tidy Towns organisations have reached out to candidates during campaigns requesting that posters not be erected on poles in towns and villages. Designated locations would reduce the visual impact posters and displays have on towns and villages at a time some of them are being judged in competition. Designated locations would also be safer for motorists and pedestrians ensuring sight lines are maintained and that posters are displayed properly and safely.
3. It will reduce the financial barriers faced by candidates making it a fairer and more even field for all contesting candidates.
4. Every election in recent years this topic has been raised by the public and in the media, we are yet to address it. Now is the time to start this process before the 2024 elections.
