Councillors Notices of Motions

Other motions received

13. Alastair McKinstry

- I will propose:

“that Galway County Council add the cycle lanes and paths in the County towns and villages and add them to the priority list for gritting in Winter time, and to add the cycle lanes and paths to a rota for cleaning at least once a year of wet leaves and debris, subject to funding later agreed. If the public are to have trust in our cycling infrastructure and investment, the paths must be safe. This motion commits the council to ensure it will be so. The council will draw up the list of obstructions and works needed to make this possible (eg. Moving any obstructing signposts, equipment purchases, etc.) for inclusion in future work programs and budgets.”

14. Jim Cuddy

- I will propose:

“that Galway County Council give a full update on the present status of the Old Galway Airport Site at Carnmore. It is a number of years since consultants were engaged to draw up proposals for the airport site and to date I have failed to get any information. In the Budget 2020 announced on October 8th reference was made to support for Regional Airports and I would like to know what efforts have both the County and City CEO's made to get support for the Carnmore Airport Site.”

15. David Collins

- I will propose:

“that the new County Development Plan supports the provision of Retirement Villages to facilitate independent living for our ageing population by means of the inclusion of appropriate policies and objectives in the County Development Plan.

That the Council support independent living for the elderly by means of its build programme and through supporting Approved Housing Bodies in delivering appropriate housing options for our ageing population to include appropriate support services on an inter-agency basis

These retirement villages would cover the full spectrum of needs for Independent living.

This motion would allow for both the private and public sector, or both, and approved housing bodies to facilitate the effective delivery of bespoke housing options for the elderly so that they can find safe secure independent living option within their own community.”

16. Shelly Herterich Quinn

- I will propose:

“as a member of the steering group for the delivery of a NEW ‘one-stop’ Oncology Day Care Treatment Centre for Galway City and County, I would like to propose that the 39 chamber members of Galway County Council, in collaboration with our colleagues in Galway City Council, write to the HSE outlining our support for the badly needed Cancer Treatment Centre.

I would further propose we inform our regional Local Authority colleagues of our intentions and look for their support. The effects of not having adequate and wholistic Oncological services are having a broader impact regionally and as a community we need to act now.”
