THE COMPETITION:

Galway County Council invites applications from suitably qualified persons for appointment as Resident Engineer for the N6 Galway City Ring Road (N6 GCRR). The appointment will be on a specific-purpose basis. A panel may also be formed from which related temporary or specific-purpose vacancies may be filled during the lifetime of the panel.

Galway County Council is progressing the project in partnership with Galway City Council and Transport Infrastructure Ireland (TII). TII is the Approving Authority for national road projects, and Galway County Council will be the employing authority for this post. The successful candidate will join the dedicated N6 GCRR project office and work across the project, the two local authorities, TII and the appointed design and delivery teams.

Project Context

An Coimisiún Pleanála granted approval for the N6 GCRR on 7 April 2026. The scheme is included in the National Development Plan and was designated as Critical Infrastructure in July 2026. It is a core component of the wider transport solution for Galway City and County, complementing BusConnects, rail enhancements, Active Travel, demand management and other measures under the Galway Transport Strategy.

The approved scheme is approximately 17.5 km in length and includes:

- approximately 11.9 km of motorway/dual carriageway from the existing N6 at Coolagh, northeast of Galway City, to the Ballymoneen Road area northwest of the city;
- approximately 5.6 km of single carriageway continuing to the R336 Coast Road west of Bearna;
- a new crossing of the River Corrib, together with major bridge, road and ancillary structures;
- grade-separated and at-grade junctions, link roads, side roads, accommodation works, drainage, landscaping, environmental mitigation and active-travel interfaces; and
- significant utility diversions and protection works, including interfaces with the 110 kV and 38 kV electricity networks and other statutory undertakers.

The project is a major national infrastructure investment with an overall value expected to exceed EUR 1 billion. TII has authorised the project to progress to Phase 5 under the TII Project Management Guidelines. The current Enabling, Procurement and Delivery stage includes detailed design, preparation of contract documents, procurement, property and utility readiness, advance works and progression to the main construction contract.

Current Delivery Context

The indicative programme provides for detailed design and procurement during 2026-2027, advance works from 2027 and commencement of the main construction contract from 2028, with an

estimated main construction period of approximately 36 months. The programme is subject to statutory, legal, funding and gateway approvals. Judicial review proceedings have been commenced in respect of the planning decision; authorised Phase 5 activities are being progressed in accordance with legal advice and TII approvals.

THE ROLE:

The Resident Engineer shall be responsible for the on-site supervision of the construction stage of contracts and shall perform the duties allocated on site by a Senior Resident Engineer or any person designated by the Council's Senior Engineer. The Resident Engineer's primary role is to ensure that works are constructed as designed and instructed and that the Contractor carries out all his obligations under the contract.

The person appointed will work under the direction and control of the N6 GCRR Project co-ordinator, the Senior Engineer responsible for the National Roads Project Delivery Office, or another officer designated by the Director of Services or Chief Executive. The post holder will support the Employer's Representative, Project co-ordinator, Supervisor or equivalent contract role designated under the final procurement and contract strategy. This briefing does not predetermine the form of contract or the formal allocation of contractual functions.

Core Outcome

To ensure that the N6 GCRR is construction-ready and subsequently delivered safely, lawfully and in accordance with the approved design, planning and environmental commitments, contract requirements, programme, quality standards and approved budget, with complete and reliable records throughout.
